IBERIAN LOIN | SPARE RIBS | COLLAR | CHEEK IBERIQUE FILET | SPARE RIBS | ECHINE | JOUES

The incomparable taste of the meat of the Iberian pig (Pata Negra) is the result of the food given to the pigs and physical activity.

This comes naturally, in autumn when the trees turn green, the Iberian pigs eat mostly acorns falling from the oak trees. Physical activity from free-roaming contributes to the quality of the meat and acorns accentuate the taste of walnut in the meat.
